

Welcome to Cavendish Health Centre

Dear Patient

Welcome to Cavendish Health Centre. Your registration will shortly be processed and we look forward to meeting you.

What to do first

Please have a quick look at the list below to see if any of the following apply to you. If so, you would benefit from arranging a routine appointment with a member of our clinical team.

Medication

If you are currently taking medication, or need to request any new medication, please make sure you book a routine appointment with the doctor or our clinical pharmacist. You can book a face to face, skype or telephone appointment for this purpose.

Long term conditions

If you have a long term condition such as Asthma, COPD, Hypertension or Diabetes, please make sure you book an appointment with the Practice Nurse.

Online Services

You may find it more convenient to manage your appointments, request repeat medication, send an online message to the doctor or see a summary of your record online.

Our admin team will automatically send you online login information once your registration is fully completed if you have asked us to do so in the New Patient Questionnaire.

You can request access to the online services at any time by asking our reception team.

Emergency Appointments

If you have a problem that you feel cannot wait until the next available routine appointment please let our reception team know. You can be assessed by the on-call doctor for a same day appointment over the telephone. The reception team will take details of your case and the doctor will telephone you back the same day to discuss the correct course of action for your problem.

If you have any questions please do not hesitate to speak to one of our lovely reception team at the surgery or by calling us on 0207 487 5244

Thank you.

The Cavendish Health Centre Team
